-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

1. ***Claims 1-8, relating to:***

An electronic settlement system comprising:

a shop connected to a communication network;

a plurality of terminals connectable to said network;

a plurality of settlement institutions connected to said network;

servers connected to said network and provided so as to correspond to each of said settlement institutions, installed for each customer in order to take procedures for settlement of electronic commerce for a plurality of customers using said shop on said communication network by operating each of said terminals; and wherein

each of said terminals is provided with a plurality of connecting modules installed so as to correspond to each of said servers and operated to connect each of said terminals to each of said servers through said communication network so that said customer is able to take procedures for settlement and with a selecting module used to select said connecting module corresponding to said server from said two or more connecting modules provided to each of said terminals to use said server corresponding to said settlement institution.

2. ***Claims 9-23, relating to:***

An electronic settlement system comprising:

a shop connected to a communication network;

a plurality of terminals connectable to said network;

a plurality of settlement institutions connected to said network;

servers connected to said network and provided so as to correspond to each of said settlement institutions, which are operated to manage two or more pieces of

software installed for each customer in order to take procedures for settlement of electronic commerce for a plurality of customers using said shop on said communication network by operating each of said terminals; and wherein

each of said terminals is provided with a single connecting module used to connect each of said terminals to a desired server selected out of said two or more servers through said communication network so that said customer is able to take said procedures for settlement.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no generic claim is maintained.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3624

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Alpert whose telephone number is (571) 272-6738. The examiner can normally be reached on M-F 9:30-6:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vincent Millin can be reached on (571) 272-6747.
